

## About the Role:

We are seeking a talented **Fullstack Developer** to join our team at **Sclera**. In this role, you will be responsible for designing, developing, and maintaining both the frontend and backend of our applications. You will work closely with cross-functional teams to create seamless, scalable, and efficient solutions that meet our business needs.

## Key Responsibilities:

- **Fullstack Development:** Design and develop both client-side and server-side components of web applications. Ensure a seamless user experience across different devices and platforms.
- **Front-End Development:** Build responsive and interactive user interfaces using modern frameworks and technologies such as React, Angular, or Vue.js.
- **Back-End Development:** Develop and maintain server-side logic, APIs, and databases using technologies like Node.js, Python, Java, or .NET.
- **Integration:** Work on integrating third-party services and APIs to enhance application functionality.
- **Code Quality:** Write clean, maintainable, and well-documented code. Conduct code reviews and ensure adherence to best practices and coding standards.
- **Testing:** Implement and maintain unit tests, integration tests, and end-to-end tests to ensure high-quality deliverables.
- **Collaboration:** Collaborate with UX/UI designers, product managers, and other developers to gather requirements and deliver features that align with business goals.
- **Continuous Improvement:** Stay updated with emerging technologies and industry trends. Propose and implement improvements to our development processes and tools.

## Qualifications:

- Bachelor's degree in Computer Science, Software Engineering, or a related field (or equivalent practical experience).
- Proven experience as a Fullstack Developer with a strong portfolio of completed projects.
- Proficiency in front-end technologies (HTML, CSS, JavaScript) and modern frameworks (React, Angular, Vue.js).
- Experience with back-end technologies and frameworks (Node.js, Python, Java, .NET) and relational or NoSQL databases (MySQL, PostgreSQL, MongoDB).
- Strong problem-solving skills and the ability to work independently and collaboratively.
- Excellent communication skills and the ability to convey technical concepts to non-technical stakeholders.

## Education

- BE in **Computer Science or MCA**.
- Annual CTC (on successful completion of Internship): 6 LPA ( 10% Including Variable Pay)
- Internship Stipend: Rs. 15,000/- per month Industry
